

Charter Township of Washington
Department of Public Works
CERTIFICATION OF FINAL GRADE

Parcel ID number: _____

Legal address: _____

Subdivision and Lot: _____

- Preferred size of drawing should be no greater than 11 x 17.
- Provide one (1) original stamped and sealed copy of both the Certification and As-Built Grade.

Name of Builder/Company: _____

Contact Name and Phone Number: _____

We, the undersigned civil engineer or surveyor, hereby certify that the grading of this property

1. is in general conformance with approved plot plan grades;
2. meets standards established in Township ordinances that pertain to drainage and grading;
3. has positive drainage in the directions indicated on the approved plot plan.

We also certify that as-built grades on this drawing are correct and accurately reflect the surface of this property and adjacent properties. In addition, we certify that the property corner irons and monuments have been set and are correct.

NOTE

Use scaled drawing of the property as the basis of the certificate. Show an as-built grade for every proposed grade on the approved plot plan. In addition, show as-built grades for any and all additional high points and low points defining actual drainage on the property. Clearly designate what grades are as-builts and when the measurements were made.
